REASONS FOR ALLOWANCE

In addition to reasons cited in applicant's response received December 15, 2009, the following is an examiner's statement of reasons for allowance:

The instant claims are drawn to a process of making a termite bait by mixing alpha-cellulose, water and a pesticide, followed by compacting the mixture to a density greater than 1 gram per cubic centimeter and drying the compacted composition to remove at least a portion of the water. The final composition is required to have from 60 to 99 weight percent of alpha-cellulose, 40 to 1 weight percent of water and 0.0001 to 10 weight percent of pesticide. The claims also encompass a composition formed by the instantly claimed process and applying the instant composition to a termite locus.

Roe (USPgpPub 2003/0014906) teaches that alpha-cellulose is a food preference for termites, see paragraph [0020], but fails to teach mixing alpha-cellulose, or any termite food, with water.

Both Minagawa et al. (US 5,096,710) and Martin et al. (USPgpPub 2003/0152605) separately teach compacting baits to a specific density of more than one gram per cubic centimeter, see column 4, lines 8-19 and 48-50 of Minagawa et al. and claim 20 of Martin et al. However, Minagawa et al. and Martin et al. also separately teach away from incorporating water into a termite bait composition, see column 1, lines 33-46 of Minagawa et al. and paragraphs [0014 and 0019] of Martin et al.

Therefore, the prior art does not teach or suggest a process of compacting a mixture of alpha-cellulose, water and pesticide to obtain the desired density, followed by drying the compressed form to remove a portion of the water to yield the weight percentage ranges instantly

required. The prior art also does not teach or suggest a composition comprising the required ingredients and structural voids produced by the instant process or a method of applying the composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHANON A. FOLEY whose telephone number is (571)272-0898. The examiner can normally be reached on flex, generally M-F 7AM - 3 PM, alternate Fridays off.
